

# NORTH AMERICAN FIRE HOSE

The difference is...*your* margin of safety.

## D-BAK 800™

### EPDM Rubber Lining / Nylon 6-6 Double Jacket

#### (*Dura Built Anti Kink™*)

- Exclusive **DURA-CORD®** advanced air-textured Nylon 6-6 continuous filament warp yarns, resulting in superior toughness, abrasion resistance, cut resistance, tear strength and heat resistance when compared to competitive nylon, spun polyester or filament polyester warp constructions. **DURA-CORD®** is the registered trademark for NAFH. Fire hose sold under this brand is specifically manufactured by NAFH.
- Unique **Ultra-Shield™** high performance polymeric coating seals each and every fiber in the bundle, further improving the abrasion resistance, reducing moisture and chemical absorption, and providing vivid color-coded identification.
- The EPDM rubber lining is unaffected by Ozone deterioration and is one component in the **Friction Fighter System™**, creating an extremely smooth waterway surface, thereby reducing friction loss and improving nozzle performance.

- The **Dura-Bond™** vulcanized adhesion system, which creates both a mechanical and chemical bond between the EPDM lining and the jacket, reduces the probability of delamination as is experienced with competitive adhesive bonded rubber lined constructions.
- The result is an extremely strong and flexible hose with exceptional heat, abrasion, chemical and **kink resistance**.
- Reflective directional indicator is optional at an additional cost
- Both the hose and couplings are made in the USA, performance shall meet and exceed NFPA 1961 standards.

**Applications include Attack, High Rise, CAFS**

**Available in 50 foot lengths**

 **FAMILY OWNED  
AMERICAN MADE**

HOSE SIZE	SPECIFICATION NUMBER	ACCEPTANCE TEST PSI	SERVICE TEST PSI	BOWL SIZE	WEIGHT PER 50' UNCLPD
1 3/4"	D-BAK	800 PSI	400 PSI	2 3/16"	19 lbs.
2"	D-BAK	800 PSI	400 PSI	2 3/8"	24.5 lbs.
