

# R.O.M. INNOVATION

ROLL-UP DOORS, CARGO SLIDES & LIGHTING

SAFE  FLEET  
Driving Safety Forward™

# R·O·M Innovation

## Over 70 Years of Excellence

Manufacturing safety products since 1947, R·O·M's commitment to improve worker safety has continued with the introduction of roll-up compartment doors, folding safety ramps and automatic hose bed covers. Product solutions are primarily marketed to emergency responders, military and commercial truck bodies.

R·O·M created the innovative roll-up door technology. Manufactured tough; R·O·M doors, cargo slides and lighting are used worldwide. Simple to operate R·O·M doors provide quick, efficient access and include options specifically tailored for your various applications or requirements. Plus, attractive finishes and colors are available including satin or matching high-gloss paint.

# Series IV Roll-Up Door

## The toughest roll-up door in the business

The new Series IV Roll-Up Doors provide rugged wear, reliability and security on any apparatus. The features of the doors have been strategically designed and constructed with longevity in mind. Series IV doors are stronger, smoother and designed with a larger opening than the Series III or the competition. Doors are available painted to match existing color or unpainted in a satin or brush finish.

**A**  
**Optional Large Profile Drip Rail**

**B**  
**Low Profile Seal**  
Provides a superior seal against water & dirt infiltration.

**C**  
**5 Track Styles**  
With and without a finishing flange, offering the most mounting options in the industry.

**D**  
**Curved Finger Pull**  
Allows for better feel when closing shutter door. Features a grooved surface for improved grip and unique design increases usable opening height over other comparable shutter doors.

**E**  
**Over-Molded Idler Wheels**  
For smooth & quiet operation.

**F**  
**Extruded Inner Seal**  
One piece extrusion providing superior strength & increased structural rigidity.

**G**  
**Magnetic Door Ajar Switch**  
With improved reed switch for reliability.

**H**  
**Stronger Lift Bar**  
Lift bar is 2x stronger. Features improved grip and unique D shape - will not bow or bend.

# Cargo Cover Doors

Available in automatic or manual configurations

## Protect equipment and deter theft.

- Eliminate supplies from blowing out and becoming projectiles for other drivers
- Minimize dirt, dust, water and other elements from entering the bed
- Discourages theft and conceals contents with optional lock
- Custom built to fit your application
  - Sizes from 28" (711 mm) to 76" (1930 mm) wide and 30" (762 mm) to 226" (5740 mm) long
  - Vertical heights from 19" (482 mm) to 96" (2438 mm)
- Provides an 800 lb. (362.9 kg) load rating, eliminating weak canvas tarps that rip and tear
- Optional Anti-Slip tape can be applied to improve foot traction.

Cover stores neatly inside the bed using this simple coil system

Pull strap assists in closing cover (manual cover shown with optional key lock)

Sealed nylon ball bearing wheels mounted on each slat provide low rolling resistance

Interior view of motorized cover

Custom radius door configuration. Inquire about minimum and maximum widths.

Fire truck hose bed (motorized cover shown). Inquire about minimum and maximum widths.

# DuroStrip™ LED Strip Lights

## Industry's only serviceable LED strip light

The DuroStrip™ LED Lightbar features 6" (152 mm) and 12" (304 mm) modular components that snap together to form continuous lighting to 96" (2438 mm) - which can be extended by adding end block terminals.

- Works with all R·O·M doors
- Installs in any compartment
- Easy to retrofit inside compartments with and without roll-up doors
- Stand alone lights come pre-installed in a 6063T6 heavy duty aluminum extrusion, choice of mounting options which makes installation quick and easy
- IPX7 water resistant and Mil 810 rev A vibration tested means these lights will work when you need them most
- LED lights provide 250 lumens of light drawing .33 amps per foot (304 mm)
- Available in white, white/red combination, and white/blue combination

Exceeding NFPA fire apparatus standards, the DuroStrip™ LED compartment light provides professionals in all fields more usable light to see, step and reach with confidence.

# DuroLumen™ Utility LED

A brilliant approach to utility and emergency lighting

- IPX7 Water resistance rating and vibration tested to Mil 810 rev A
- Reverse polarity and over/under voltage protected
- Easy retrofit - fits industry accepted hole patterns: 3.5" x 16" x 1" (88.9 mm x 406.4 mm x 25.4 mm)
- Up to 2800 lumens of diffused lighting
- Surface or recessed mounting options with bezel included
- Simple installation and long lasting

Surface mount, part #R03696 White/White shown

Recessed mount, part #R03853 White/White shown

PART NUMBER	DESCRIPTION	LUMEN	AMP	VOLTAGE RANGE

# Extreme Cargo Slide Series

The only no binding cargo slide

R-O-M's latest innovation is the Extreme Cargo Slide Series® which meets the strict requirements of the fire and military service. Full width pull handles ensure rapid access to stored equipment. Built with tough 6061 T6 aluminum and Stainless Steel hardware, R-O-M's Extreme cargo slides will handle your toughest jobs. The R-O-M Extreme Cargo Slide Series is lighter and stronger, allowing for more equipment storage and fuel savings.

R-O-M cargo slides reduce back strain by rolling heavy, bulky items outside the compartment where they can be reached without straining.

Easily carry up to 1,000 lbs. (453.6 kg), while extending the slide 70%, 100%, or 120% outside the compartment.

- Roll with ease with the industry's only "V" grooved system
- Every rail is inset with a high visibility red reflective tape
- Industry's only Low Profile slide with the highest load capacity, 1000 lbs (453.6 kg)
- Available models, 70%, 100%, 120%, 90% Tilt, and 70% Dual Direction

**Consult your Safe Fleet sales representative today.**

Exclusive "V" groove system and standard reflective tape

120% 600 lb (272.2 kg) rated cargo slide

90% 250 lb (113.4 kg) rated tilt slide
